*Helping Families of Children with Special Needs Get The Services
They Need From The Public School System*

If You're Interested in Using The McKay Scholarship,
But Want to Make Sure Your Child is Qualifying for the
Most Money Possible....We Can Help...For Free.

Introducing: The McKay IEP Review Program

NOW is the time to move if your goal is to use the scholarship and move your child to a private school in the fall. That's because if your child can qualify for a higher scholarship amount than they currently have, you will have to have at least one IEP meeting, maybe more. The school may have to do additional evaluations and that takes time. One thing we know for sure about getting services from the public school system is it takes a lot of time to get things done. So it's important to start planning for next fall, NOW.

Here's how The McKay IEP Review Program works:

1. If you have a child who is currently enrolled in the public school and they have an IEP, send an email to KerriQuayle@TheIEPAdvocate.com letting her know you want to have your child's IEP reviewed. Include your name and phone number.
2. You will receive an email letter with a list of documents you will need to send to us via mail, fax or email.
3. Once we receive your information, we will review it. If more information is needed, we will contact you by phone or email. We will complete the review within 10 days and get back with you and let you know if we think the matrix can be increased or not.
4. And we do this for free.

We're passionate about educating, encouraging and empowering families of children with special needs. This service will give you the peace of mind knowing that for McKay Scholarship purposes, your IEP is either as good as it can get, or it might be possible to increase services and qualify for a higher scholarship amount. Either way, having this information will help you plan better for the fall.

To get started, send an email, with your name and number to:
