The McKay Scholarship IEP Review Program

If You're Interested in Using The McKay Scholarship But Want to Make Sure Your Child is Qualifying for The Most Money Possible....We Can Help

The amount of money for your child's McKay Scholarship depends on how the IEP is written and the amount, and type, of services on the IEP. Unfortunately there are many services available from the public school district to help children be more successful in school. The problem is that school personnel do not tell you what these services are and as a result, two things happen...your child doesn't get the help he/she needs and your McKay Scholarship is lower than it should be.

We Specialize In Maximizing McKay Scholarship Amounts

We've been involved with the McKay Scholarship program since it was first created over 10 years ago. We love what it does for families because it helps give you the opportunity to put your child in a school that can better serve your child's needs.

We're passionate about educating, encouraging and empowering families of children with special needs. This service will give you the peace of mind knowing that for McKay Scholarship purposes, your IEP is either as good as it can get, or it might be possible to increase services and qualify for a higher scholarship amount. Either way, having this information will help you plan better.

NOW Is The Time To Start Improving Your IEP

If your goal is to use the scholarship and move your child to a private school during this school year or next. That's because if your child can qualify for a higher scholarship amount than they currently have, you will have to have at least one IEP meeting, maybe more. The school may have to do additional evaluations and that takes time. One thing we know for sure about getting services from the public school system is it takes a lot of time to get things done. So it's important to start planning for next school year, NOW.
